multicube

Various locations – one concept

The multicubes built by pfenning logistics are outstanding multi-user logistics centers throughout Europe that are being divided into different hall modules. With their respective equipment they can bundle different product and retail worlds at one location.

Benefits from a single source: the multicube concept

As Germany's TOP55 contract logistics service provider, pfenning logistics is constantly developing its skills. In 2012, the foundation stone for the unique logistics center multicube rhein-neckar was laid in the Rhine-Neckar metropolitan. What is special about all of them: planning, organization and operation of the multicubes are undertaken exclusively by pfenning logistics. Retail, automotive, food, chemicals, pharmaceuticals, consumer goods and FMCG - the multicubes offer individual contract logistics solutions for every industry.

2. State-of-the-art warehousing capacities

Various locations, endless options: whether temperature management, WHC areas, part automation or value-added services – in multicube, pfenning logistics offers multi-functional warehousing and logistics areas for industry and retail at the heart of Europe in the metropolitan region of Rhein-Neckar and in the Rheinhessen area.

3. Award-winning sustainability

With the multicube rhein-neckar, pfenning logistics developed a sustainable, innovative and multi-award-winning multi-user concept in 2012. Since then, both multicubes are among the top 10 industrial buildings in Europe that have been awarded the DGNB platinum. The multicube rhein-neckar is the unbeaten No. 1 with the top rating of 88.7%, the multicube rheinhessen is No. 9. This sustainability strategy will become the standard for all future multicube properties. .
